Why Chameleon?

You don't choose a Chameleon product just for its high-quality design and proven reliability. You also choose a partner who thinks along with you, responds quickly, and works together to build sustainable solutions. What makes Chameleon unique?

Local production, visible craftsmanship

All Chameleon products are manufactured in-house, in our modern production facilities in Geldrop, near Eindhoven. Here, we combine craftsmanship with technology, with care for people and the environment. We warmly invite customers and partners to see firsthand how we ensure quality, sustainability, and transparency.

Flexibility is in our DNA

Whether it concerns customisation, a quick adjustment in scheduling, or specific project requirements, we respond swiftly. Our family business is set up to be customer-focused and agile, without compromising on quality or service.

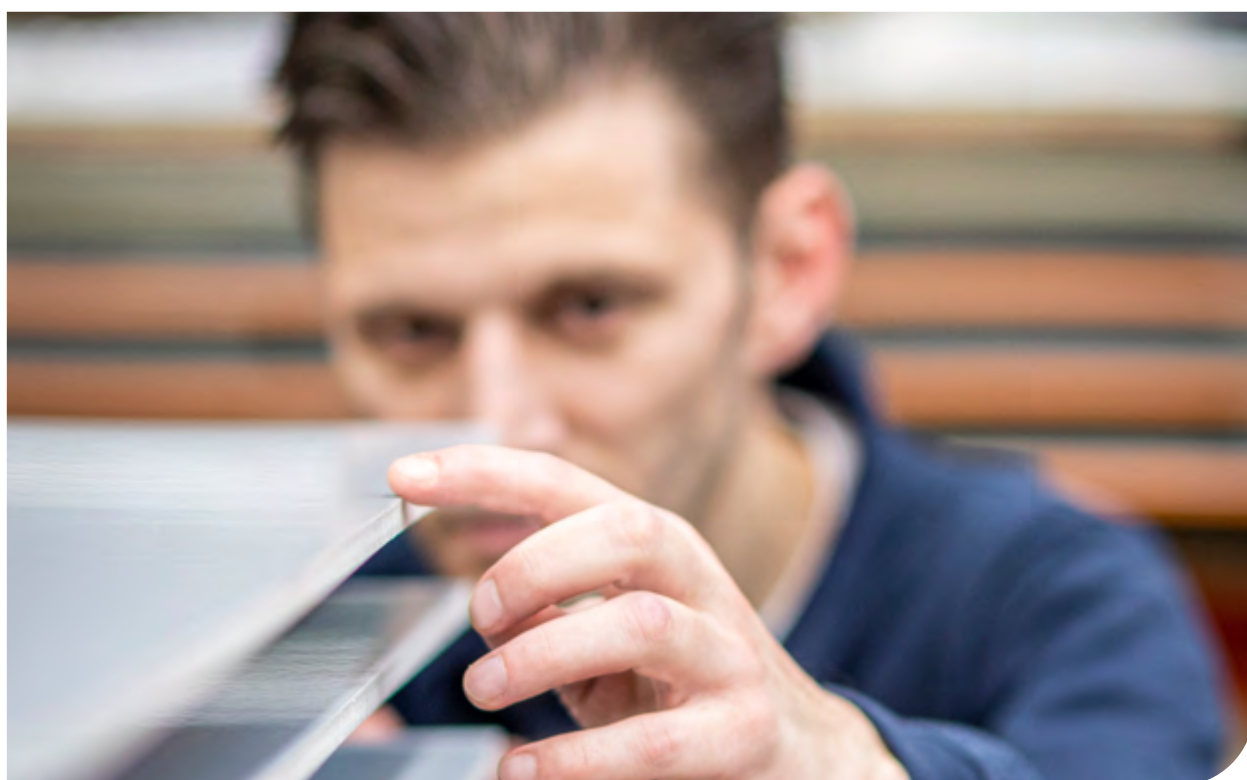

Sustainability

As a brand of Smit Visual, we take our responsibility for people and the planet seriously. We continuously work on making our processes, materials, and products more sustainable. For example, we use FSC-certified wood and hold ISO 14001 and Ecovadis Gold certifications. Sustainability is not a project, but an attitude embedded in our daily work.

Built for the future

Our products are made to last. That's why we offer a lifetime warranty on the ceramic steel writing surface. A long lifespan means less waste, fewer replacements, and therefore a smaller ecological footprint.

1. Writing

Chameleon whiteboards are delivered with the TÜV certified Chameleon magnetic mounting system. Magnetic mounting is very easy, and we supply a specified assembly drawing with each custom Chameleon whiteboard wall we sell.

Chameleon quality

The core of the Chameleon range is formed by the whiteboard. A Chameleon whiteboard can be recognized for its quality, which is visible in four ways:

1. Sturdiness:

Chameleon whiteboards are 10 mm thick with a robust, water-repellent MDF core (FSC-certified, see sustainability).

2. Surface:

Chameleon whiteboards feature high-quality magnetic ceramic steel, recognizable by a smooth surface without imperfections. We offer a lifetime warranty on writing and erasing on all ceramic steel surfaces. Below is an overview of our ceramic steel surface options.

3. Finishing:

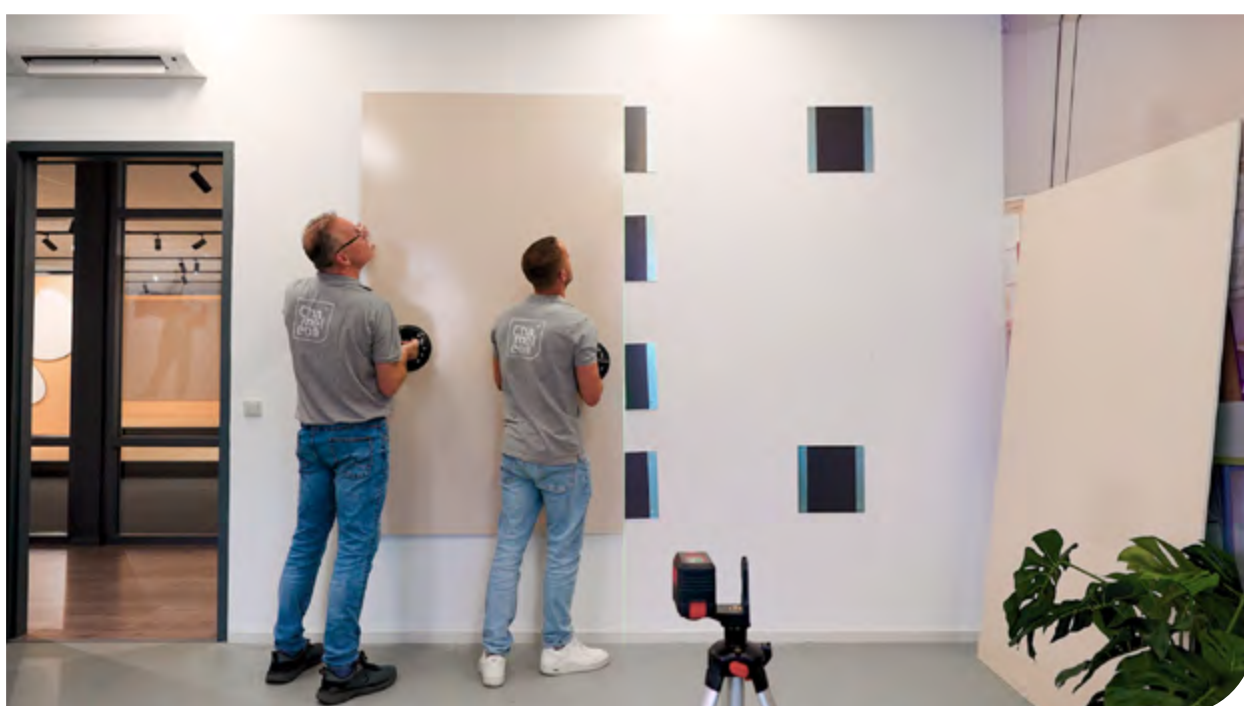

Chameleon whiteboards are machine-cut and then hand-finished. We pay great attention to the finishing process.

4. Mounting:

Chameleon uses a unique TÜV-certified mounting system that works with magnetic plates.

Mounting video

Chameleon whiteboard surfaces

What is Ceramic steel?

All Chameleon surfaces on this page feature a ceramic steel top layer, which is Cradle to Cradle Bronze certified. This enamel coating is comparable to glass in terms of hardness and smoothness, just as scratch-resistant and with the same long lifespan. Chameleon offers the following ceramic steel surfaces:

SatinTones

SatinTones is a ceramic steel surface with a matte finish. The surface has a calming appearance and is perfectly readable from every viewing angle. In addition, this surface is available in 6 subtle colour tones. SatinTones is a great alternative to glass whiteboards.

- ① **Application:** Whiteboard with a low-gloss surface. S200 (Low Gloss) is also suitable for projection
- ① **Writing / erasing:** Whiteboard markers / dry erase
- ① **Panel edge colour:** Same colour as the surface
- ① **Maximum panel size:** 1180×2980 mm / 1480×2980 mm (enkel S200)

S200
Satin Snow

S201
Satin Stone

S202
Satin Aqua

S203
Satin Leaf

S204
Satin Almond

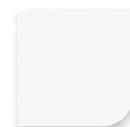

S205
Satin Blossom

High Gloss

This surface has a high gloss level, though not as high as glass whiteboards. The advantage of the glossy finish is that markings are perfectly visible on it. This makes it ideal for presentations and situations where the content needs to be read from a distance, such as in schools.

HG100
High Gloss

- ① **Application:** Whiteboard surface with a high gloss level
- ① **Writing / erasing:** Whiteboard markers / dry erase
- ① **Panel edge colour:** White (black on Curve, Round, Pebbles and Curve Wall)
- ① **Maximum panel size:** 1180×2980 mm / 1480×2980 mm

Projection

This ultra-matte surface shows no reflections at all. As a result, projection on this board delivers the best possible image quality from projectors. The board is writable, but less easy to erase than other surfaces. When using whiteboard spray during erasing, the board can be cleaned properly.

Projection

- ① **Application:** Extremely matte surface, highly suitable for projection
- ① **Writing / erasing:** Whiteboard markers / wet erase
- ① **Panel edge colour:** White
- ① **Maximum panel size:** 1180×2980 mm / 1480×2980 mm

Chalk

Choosing a chalkboard comes with specific reasons. The most important is that chalk allows you to add nuances by pressing harder or softer. The Chameleon chalkboard surface is made, just like the whiteboard surfaces, from ceramic steel. As a result, Chameleon chalkboards are perfectly erasable for life. The matte surfaces are available in green and grey.

C300
Chalk Graphite

C301
Chalk Canopy

- ① **Application:** Colourfast, wear-resistant, and soft, even colour distribution
- ① **Writing / erasing:** Chalk / dry erasing
- ① **Panel edge colour:** Black
- ① **Maximum panel size:** 1180 × 2980 mm / 1480 × 2980 mm (C301 only)

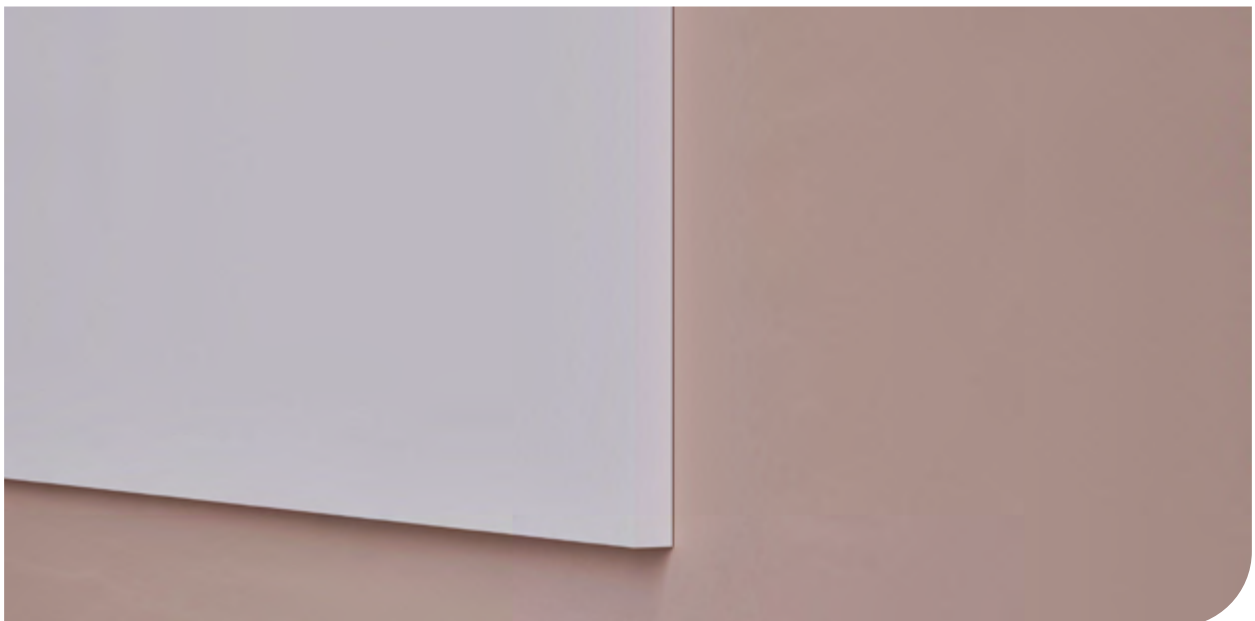

1.1 Sharp

Writing / Whiteboards / Elements / Sharp

Simple and minimalist, that's the power of Sharp. This whiteboard comes in its most basic form: straightforward, without a frame, and white on all visible sides. The rectangular whiteboard is available in 11 different sizes and can be hung both horizontally and vertically.

1.8 Custom whiteboard wall

Writing / Whiteboards / Coverings / Custom whiteboard wall

Every organization is unique. With a Chameleon custom whiteboard wall, this uniqueness can be accentuated. Create a magnetic writing surface with complete freedom in shape and size. It allows you to think big and unleash your creativity.

- Make it wall-filling (precisely in millimeters, keeping in mind to allow for some flexibility due to uneven walls).
- Add creative shapes, such as a skyline at the top.
- Include your logo as a cutout with a full-colour print behind it.
- Have a cutout made for a TV screen on or within the whiteboard.

A quotation is provided for this product.

Chameleon glassboard surfaces

Glassboard

Chameleon Glassboards and Glass Walls feature extra-clear, low-iron glass. Unlike standard glass, there is no visible green tint, ensuring that all 18 glassboard colours appear pure and vibrant.

- ① **Material:** Tempered safety glass, extra-clear.
- ① **Thickness:** 4 mm glass with a 0.4 mm galvanised backing sheet.
- ① **Depth from wall:** 5 mm.
- ① **Usage:** Panels are dry-erase and magnetic, compatible with glassboard magnets.
- ① **Finish:** Edges are ground all around with a matte finish.
- ① **Installation:** Panels are mounted to the wall using our certified magnetic mounting system, making it quick and easy to hang straight and join multiple panels.
- ① **Colours:** Chameleon Glassboards and Glass Walls are available in 18 colours. The colours are enamelled on the back of the glass (baked-in), preventing any discolouration.

9 and 18 mm PET felt

Transform any space into a haven of calm and clarity with acoustic PET felt wall panels. By absorbing echoes and unwanted reflections, they make conversations sound natural and help boost focus and concentration.

1. Application:

The 9 mm PET felt is used for the Sharp, Curve and Creatives Walls, as well as the 9 mm Single Layer Covering. The 18 mm PET felt (2 layers of 9 mm) is used for the Elements and Creative Panels.

2. Material:

Chameleon Acoustics is made from 100% recyclable polyethylene terephthalate (PET), of which more than 50% comes from recycled PET bottles. These materials are processed into a sound-absorbing felt with a soft texture.

3. Thickness and dimensions:

The thickness of the PET felt panels is 9 or 18 mm. The maximum panel size is 120 x 240 cm.

4. Fire resistance:

According to EN13501: B-s1,d0

5. Mounting:

Chameleon Acoustics products can be mounted on the wall in three different ways:

- Magnetic: quick, easy, and removable. The panels (Elements) are simple to install and align with each other.
- With adhesive (not included): preferred for full wall coverage (Walls and Coverings). The initial tack is flexible enough to allow slight adjustment during final panel positioning.
- Velcro: ideal for the smaller Creative Panels; fast and easy.

9 and 18 mm PET felt

Colours

The 9 mm and 18 mm PET felt from Chameleon Acoustics is coloured all the way through. In creative patterns, the colour is also visible in the cut-outs. We have selected 23 colours, with a strong presence in grey, green, and brown shades.

2.1 Sharp Acoustics

Acoustics / Elements / Sharp Acoustics

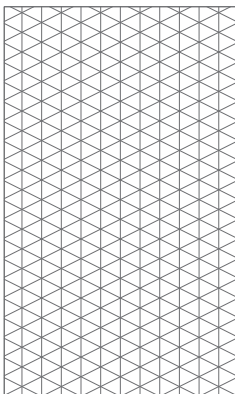

Add colour and sound-dampening to your whiteboard. These 9 mm thick PET felt panels are available in 23 colours (p. 40). The different panel sizes are compatible with Chameleon Sharp Wall (p. 24–25) and/or Chameleon Sharp Glassboard and Sharp Glass Wall (p. 32–35).

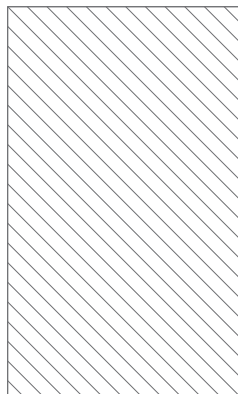

Mounting: magnetic | PET felt colour: Iguana - P019

5.4 Add-Ons

Accessories / Add-Ons

Deze magnetische whiteboard accessoires voegen sfeer en functionaliteit toe aan een whiteboard (wand). Zo heb je altijd al je spullen bij de hand, zoals je geeltjes, je tablet, je telefoon en zelfs je koffiemok. Je kunt er ook een inspirerend magazine of een hip plantje op zetten. Chameleon Add-ons komen altijd van pas!

De Chameleon Columniser is een handig magnetisch hulpmiddel om strakke markerlijnen mee te trekken, voor bijvoorbeeld een tabel of een scrumopstelling. De kolomkaarten uit de Chameleon Scrumkit passen er precies in.

Art. no.	Description
14021.201	Chameleon Columniser
14021.202	Chameleon Stack Box
14021.203	Chameleon Magazine / Pad Stand
14021.204	Chameleon Cup Holder
14021.205	Chameleon Coat Hanger
14.019.960	Design cilindermagneten, set van 10

I'm not using pCon yet

The globally renowned pCon platform is a 3D interior design software used by countless interior professionals. pCon offers various apps you can use. The main tool you need to create 3D visualisations is pCon.planner for laptop/desktop. This software is free to use and can be downloaded here. Don't forget to request the Chameleon data at the top of this page afterwards.

[Download pCon planner](#)

Additional pCon tools

Chameleon assortment items are freely accessible and can be downloaded as 3D files in pCon.catalog.

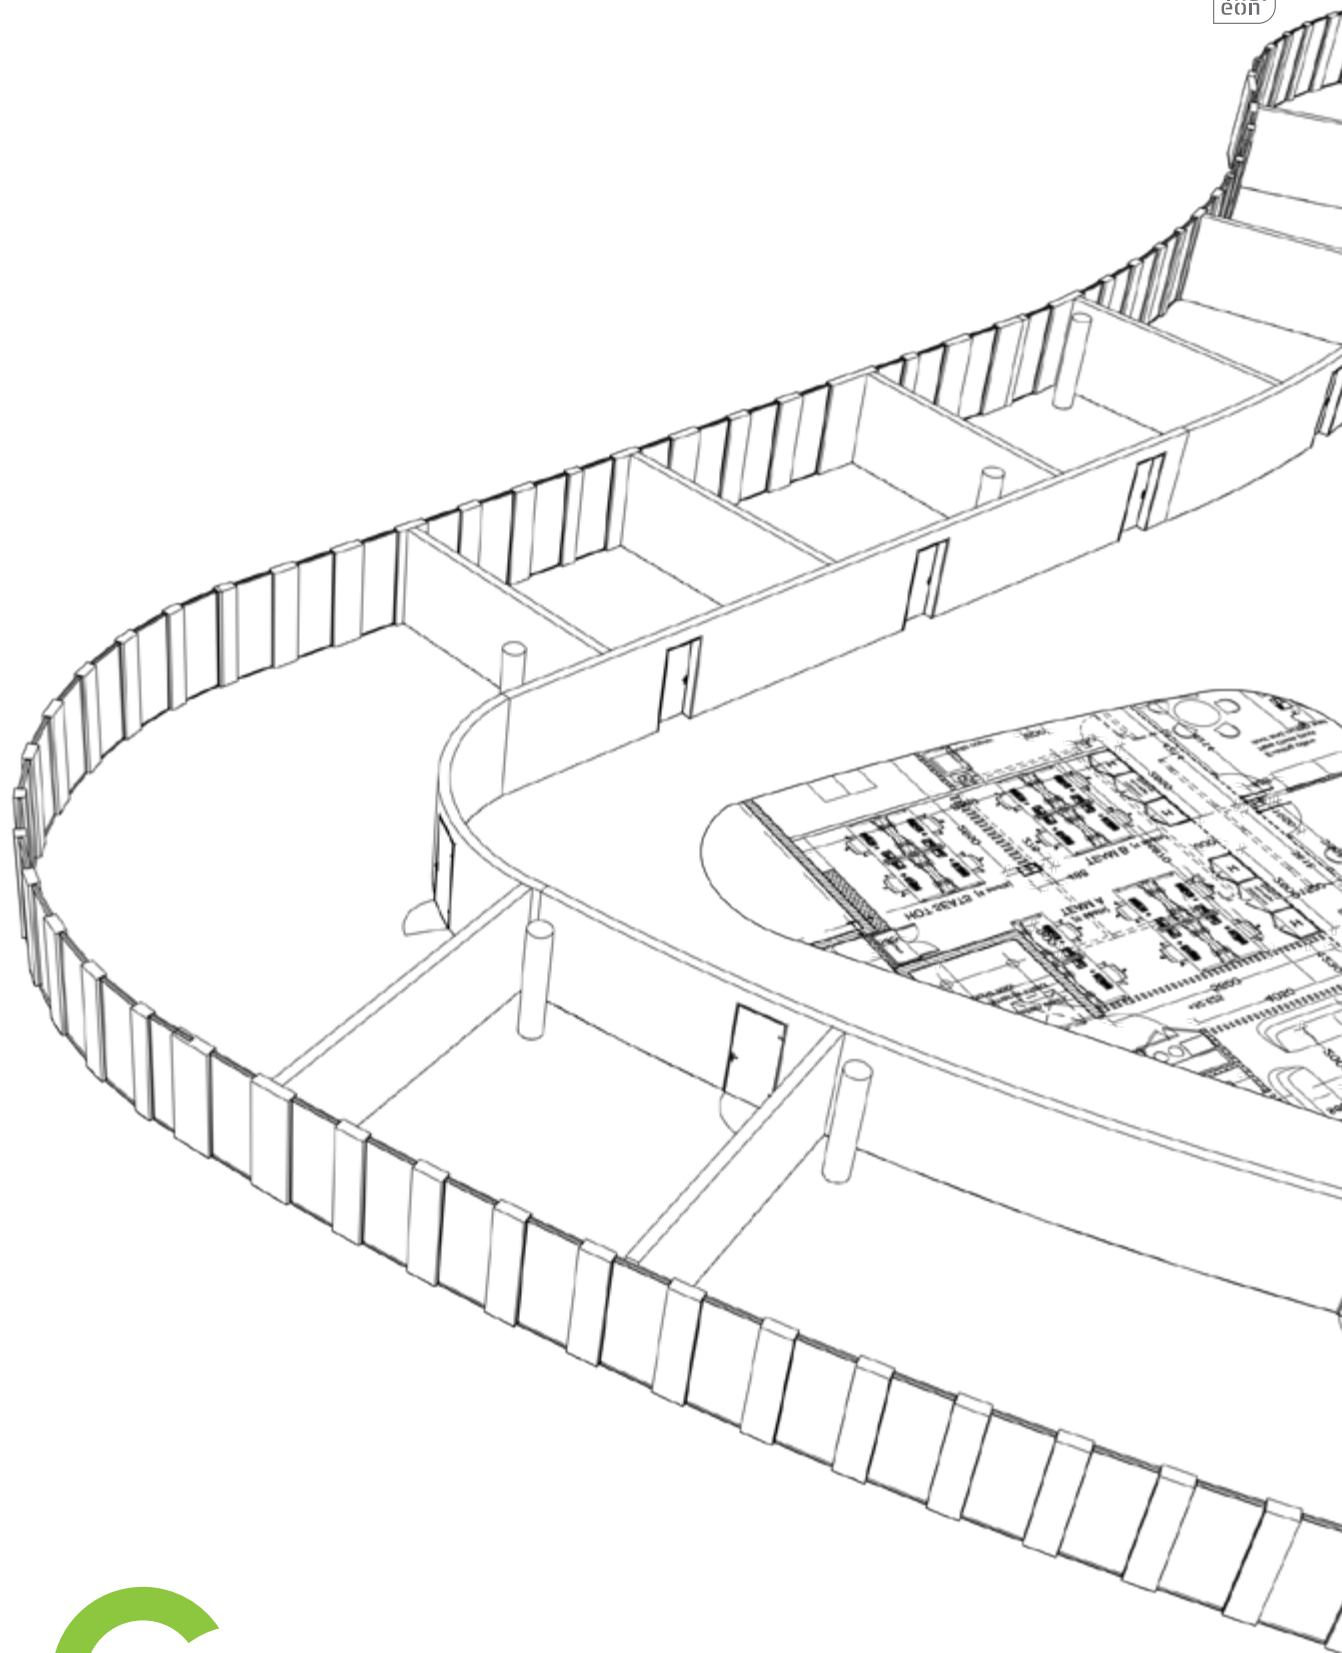

Configure Chameleon products and place them directly in a space using augmented reality. You can also upload 2D floor plans for precise placement.

pCon.facts

Always have access to product information, 3D models, and images of Chameleon products. Ideal for presentations.

The ultimate quotation tool with the CPQ (Configure, Price, Quote) application. Configure products and determine prices.
